

### **Non-Disclosure Agreement**

Matters of a confidential and privileged nature are often discussed at meetings of the OSPA Board of Directors. These may include, but not be limited to, personnel matters, political and legislative strategies, legal matters, financial matters and other confidential internal business of the association. By signing below, I am pledging to keep confidential all matters discussed by the Board of Directors except those things the Board has agreed to make public and/or available to the OSPA membership. I also understand that at no time will this non-disclosure agreement take precedence over any state or federal law or order of a court.
